ISO 27001/27002
SERVICES BRIEF

Secure. Compliant. Resilient.

SPECIALIZED S|3 SECURITY SERVICES

ISO/IEC 27001 & 27002 ASSESSMENT SERVICES

Security and governance don't have to be overwhelming.

At S3 Security, we help organizations align with ISO/IEC 27001 and 27002 by translating complex requirements into clear, actionable steps. From preparing for certification to strengthening your information security management system (ISMS), our experts deliver guidance that builds performance, trust, and long-term resilience

We support clients in meeting customer expectations, satisfying regulatory demands, and elevating internal governance by delivering the insight and confidence needed to lead with clarity.

EXPERTISE YOU CAN TRUST

Our team of ISO-certified professionals brings deep experience in governance, risk management, and regulatory alignment. With decades of experience supporting clients in healthcare, finance, manufacturing, and other regulated industries, we know how to design, implement, and optimize ISMS programs that withstand scrutiny.

A PROVEN PATH TO CERTIFICATION

We've helped organizations of all sizes prepare for ISO/IEC 27001 certification—from readiness assessments and risk treatment plans to audit support and ongoing ISMS maturity.

BUILT AROUND YOUR BUSINESS

We tailor every engagement to your unique risk profile, priorities, and structure. Our services are designed to strengthen your security posture while supporting your operational goals.

We don't just help you meet compliance standards; we help you use them to strengthen your business.

ISO/IEC 27001 & 27002 CERTIFICATION

The ISO/IEC 27000 family offers a globally recognized structure for managing information security across the enterprise. It is designed to reduce risk, improve governance, and meet stakeholder expectations. ISO 27001 focuses on certification requirements, while ISO 27002 offers best-practice guidance for implementing and managing security controls.

More than just a compliance milestone, ISO 27001 certification enhances stakeholder trust, supports regulatory alignment, and positions your organization as a security-focused leader in your industry.

S3 Security helps clients prepare for ISO audits, optimize ISMS performance, and align with Annex A control objectives using practical, business-aligned strategies.

ISO/IEC 27001: Requirements

- Defines how to establish, implement, maintain, and improve an ISMS
- Includes formal risk assessment and treatment
- Required for ISO certification

ISO/IEC 27002: Implementation Guidance

- Provides detailed best practices for 93 Annex A controls
- Helps tailor your ISMS to your risk profile and business context

Statement of Applicability (SoA)

- Maps applicable ISO 27001 Annex A controls to your organization
- Justifies exclusions and demonstrates control coverage
- Required for certification audit

WHY IT MATTERS

In today's regulatory and risk landscape, ISO 27001 certification is a competitive differentiator. It demonstrates your commitment to protecting information assets, meeting global expectations, and managing risk with rigor.

ISO certification signals that your organization takes security seriously by building trust with customers, investors, and regulators while aligning with internationally recognized best practices.

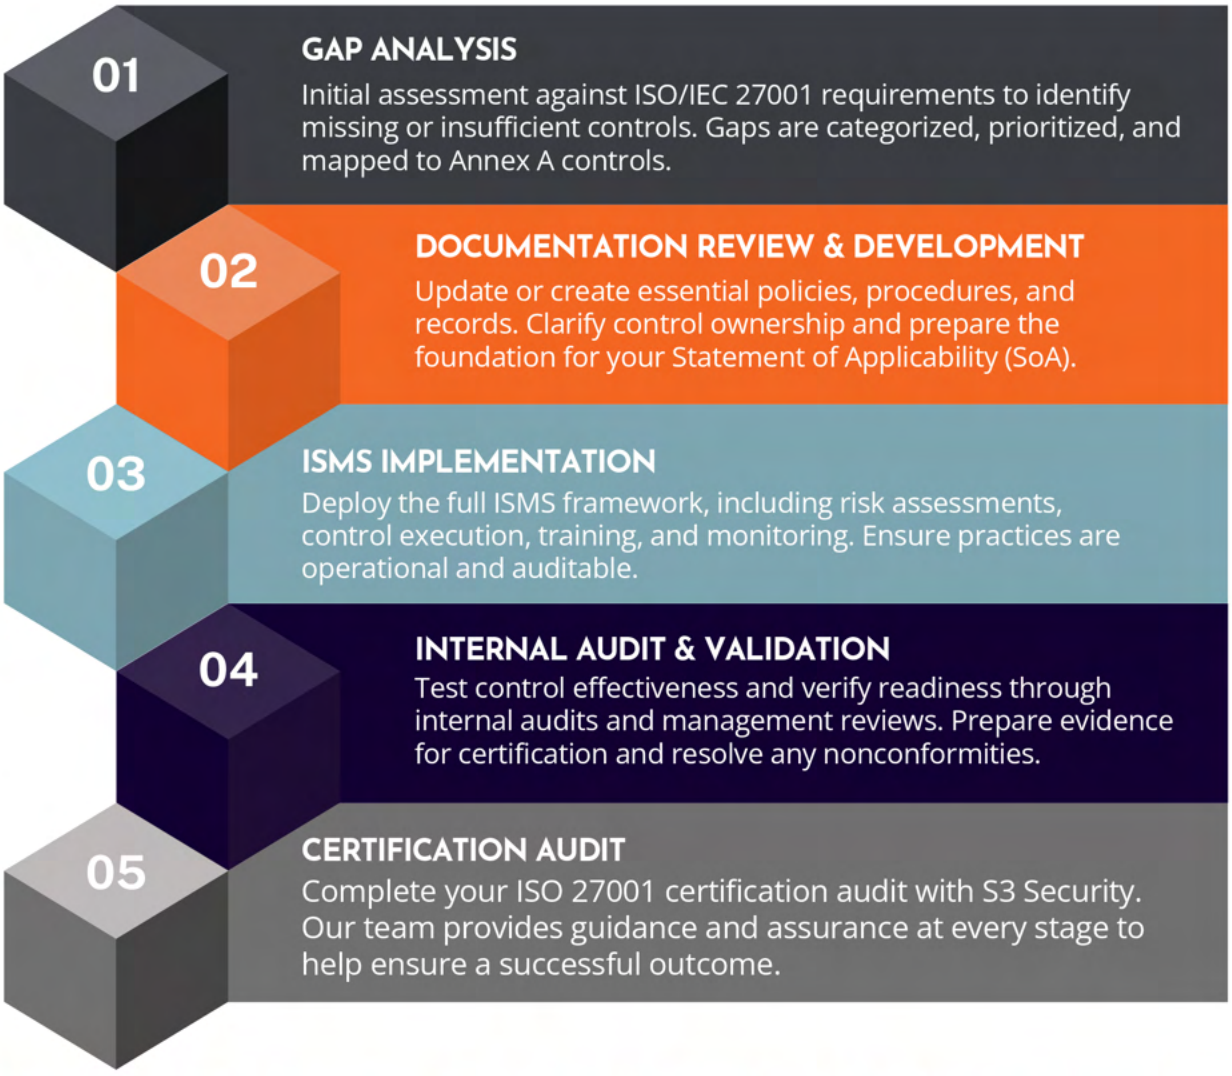
ISO 27001 READINESS JOURNEY

The ISO 27001 assessment process begins by evaluating your current security posture and aligning your ISMS with the standard's requirements. Success depends on how well your controls, documentation, and risk management practices are defined, implemented, and sustained, whether you are pursuing first-time certification or strengthening a mature program.

S3 Security helps you assess your current state, address gaps, and confidently prepare for a successful audit outcome.

Our ISO 27001 readiness journey outlines the typical steps organizations take when preparing for certification.



Certification is the outcome. Readiness is the plan. We help you succeed with both clarity and precision.

SUPPORT THAT MOVES YOU FORWARD

Knowing your starting point is only the first step. At S3 Security, we guide you through every phase of the remediation process so you're prepared for certification and positioned to create lasting value.

We turn ISO requirements into clear, achievable milestones. Our approach is built around your team structure, available resources, and business timeline to create a practical, certifiable path forward.

OUR READINESS SERVICES INCLUDE:

- **ISMS Roadmap Development:** Prioritized action plans that align with ISO 27001 clauses, Annex A controls, and business objectives
- **Control Implementation Support:** Hands-on guidance deploying policies, processes, and technical controls across your ISMS
- **Risk Assessment & Treatment Planning:** Support in identifying risks, applying ISO-aligned methodologies, and creating risk treatment plans
- **Policy & Procedure Review or Creation:** Customized, audit-ready governance documents mapped to your control environment
- **Ongoing Advisory Support:** On-demand consultation and readiness guidance from initial planning through certification

Confidence comes from knowing you're prepared, supported, and in control. We'll help you get there.

CERTIFIED. EXPERIENCED. TRUSTED.

S3 Security helps organizations achieve ISO/IEC 27001 certification with clarity, confidence, and long-term value. Whether you are building an ISMS from the ground up or optimizing an existing program, our team delivers tailored guidance aligned with ISO 27001 requirements and Annex A controls.

We support clients across industries in building secure, audit-ready environments that stand up to scrutiny and support long-term resilience.

WHAT SETS US APART

Proven ISO Experience

We've guided organizations through successful ISO 27001 readiness and certification across industries like, retail, hospitality, healthcare, financial services, technology, and manufacturing.

Certified & Seasoned Experts

Our team includes ISO/IEC 27001 Lead Auditors, Lead Implementers, and information security professionals with deep experience designing and validating ISMS programs in regulated and global environments.

Start-to-Finish Support

From early assessments to internal audits and final certification, we support every stage of your ISO journey with clarity and expertise.

Client-Centered Approach

We align our services to your unique risk profile and operational priorities to help you build a program that is practical, sustainable, and audit-ready.

Assessment-Ready Documentation

We don't just check boxes; we ensure your evidence stands up to scrutiny and satisfies auditor expectations.

Partner with a team that turns complexity into confidence and delivers with precision, accountability, and results.

YOUR PATH TO ISO 27001 CERTIFICATION STARTS HERE

S3 Security helps organizations across industries achieve ISO/IEC 27001 certification with clarity, structure, and confidence. Whether you are building a new ISMS or enhancing an existing program, we provide the expertise and proven methodology needed to move forward with success.

STEP 1: DISCOVERY & SCOPING

We assess your goals, environment, and documentation to define a clear certification path.

STEP 2: READINESS ASSESSMENT

We evaluate your ISMS against ISO 27001 to identify gaps and prioritize next steps.

STEP 3: REMEDIATION PLANNING

We deliver an actionable roadmap to address gaps and strengthen your controls.

STEP 4: CERTIFICATION

We perform the certification audit and guide you through ISO 27001 requirements with confidence.

Smart certification starts with a plan. Let's build yours.
